

AMERICAN SIGN LANGUAGE—ENGLISH INTERPRETATION

Associate of Applied Science Degree

AN

Purpose: Designed for students who have limited, if any, previous experience with interpreting for Deaf people, this degree program provides the comprehensive training in theory and practical interpreting skills necessary for employment as an educational or community interpreter. Successful completion of this program prepares the student to pursue either a Virginia Quality Assurance Screening Level or national certification through the Registry of Interpreters for the Deaf. These credentials qualify the student to interpret in either educational or community settings.

Admission Requirements: The prerequisite for admission to the program is fluency in both English and American Sign Language. This is demonstrated by placement into ENG 111 and completion of the following courses with a grade of C or better: ASL 202: ASL IV or a program assessment, ASL 125: The History and Culture of the Deaf Community, and ASL 115: Fingerspelling and Number Use in ASL.

Two Years		Credits
1st Semester		
ASL	261 American Sign Language V	3
