

**ENGINEERING TECHNOLOGY:**

**Electronic Media in Design Rendering and Animation**

Career Studies Certificate

**AL**

*Purpose:* This program will allow students to learn various hardware and software applications and will assist them in the visualization, production and presentation of any project in their respective technical fields. Since the certificate is intended for students who have had previous CAD courses or extensive job experience, it is important that students confer with a drafting faculty advisor or division counselor to better acquaint themselves with the selection of classes available.
