

## Northern Virginia Community College 2009-2010 Catalog

### ENGINEERING:

#### Electrical Engineering Specialization

Associate of Science Degree

AN

*Purpose:* The curriculum is designed to permit the student to transfer into a baccalaureate degree program in Electrical Engineering (EE). All B.S.E.E. degree-granting colleges/universities require specific preparation in the sophomore year for EE majors.

*Transfer Information:* Students are advised to work closely with the faculty and counseling staff for program and course scheduling. Electives should be chosen carefully to meet requirements of transfer institution. The responsibility for proper course selection rests with the student.

*Recommended Preparation:* High school courses: 4 units of English, 2 units of algebra, 1 unit of geometry, 1 unit of trigonometry, and 1 unit of laboratory science (chemistry or physics).

*Completion Requirements:* Grades of C and above are required in courses intended to be transferred for credit to a baccalaureate degree-granting college/university.
