Total credits for the A.A. Degree in Liberal Arts = 60

¹ Students completing the A.A. in Liberal Arts must demonstrate intermediate college-level (201-202) proficiency in a language other than English. The 201-202 courses require a prerequisite proficiency equivalent to the 101-102 sequence in the language. Placement testing determines initial foreign language level. Students completing 101-102 foreign language may use those credits to meet general elective requirements. Waivers or credit by exam (through CLEP) for previous experience is available for *some* languages. Students whose native language is not English may substitute general electives for foreign language upon the approval of the advising division dean.
