Northern Virginia Community College 2009-2010 Catalog

PHOTOGRAPHY

Associate of Applied Science Degree

 \mathbf{AL}

Purpose: The curriculum is designed to prepare students for diverse career options within the field of photography and digital imaging. Course work will stress both technical and aesthetic elements, enabling students to solve a wide range of visual problems with imagination and originality.

Recommended Preparation: Proficiency in high school English, basic computer skills, and satisfactory aptitude in visual art.

Equipment and Supplies: Photography students are required to purchase certain basic equipment and materials necessary to achieve professionally-oriented objectives. Most of the equipment is purchased in the first photography class and can be used throughout the two-year program.
