**EMERGENCY PREPAREDNESS**

**Good communication is key for safety.**
Students, faculty, staff, and visitors will be better prepared in an emergency if they know how the College will respond, where they can find information, and what they should do.

www.nvcc.edu/emergency

**Substance Abuse**
In accordance with the Drug Free-Schools and Communities Act of 1989, NOVA supports efforts to eliminate drug and alcohol abuse through a series of programs and services designed to prevent use of substances that are illegal and harmful, and to assist individuals who suffer from substance abuse. The use of drugs and the abuse of alcohol can endanger your health and your future. If you or someone you know needs help, contact Counseling Services at any campus for information about referral to community agencies.

No one may possess, sell, use, manufacture, give away, or otherwise distribute illegal substances while on campus or at College-sponsored events or meetings off-campus. Students who violate this policy will be subject to College discipline imposed through established due process procedures. The College will notify its police and any other appropriate law enforcement agencies when its rules regarding illegal substances are broken, and cooperate fully in any investigation and prosecution.
