

Zoom for Meetings

Zoom is a video collaboration and web conferencing tool that replaces WebEx, Collaborate, etc..

How do I access Zoom?

1. Go to <https://www.nvcc.edu/>
2. Click **myNOVA** and log in with your myNOVA credentials.
3. Click on the **Zoom** tile.
4. Click **Settings**.

How to...

Join a meeting

[\(Video\)](#)

Click the “Join from PC...” link in the meeting invite.

You will be prompted to download the “zoomuslauncher.zip” file.

Click on the downloaded file.

If prompted to open the file, click **Open**.

Follow the prompts to join the audio conference by phone or computer.

Schedule a meeting

[\(Video\)](#)

Log in to **Zoom**.

From the left menu, click **Meetings > Schedule a New Meeting**.

Enter the **Topic, Date, Time, and Duration**.

By default, video is turned off for the host and participants. (Host and participants can manually enable video after they join the meeting.)

Optional Settings:

- Registration requires participants to enter their email, name, or custom questions.
- Require a meeting password.
- Enable join before host (participants can join before you arrive).
- Mute participants upon entry.
- Use personal meeting ID (use the Personal Meeting Room permanently reserved for you).
- Only sign-in users with specified domains can join meetings (i.e. require participants to log into the meeting with their myNOVA logon).
- Enable waiting room allows the host to control when a participant joins the meeting. You can meet with one person while another waits in the waiting room, and then allow the person waiting to join the meeting.
- Record the meeting automatically. The recording file can be saved to your computer or “in the cloud,” i.e. on Zoom servers.
- Set an Alternative Host who can start the meeting in your absence.

Click **Save**.

Invite participants to your scheduled meeting
[\(Tutorial\)](#)

After scheduling the meeting, you will be in the meeting details screen (you can return to this screen anytime by clicking **Meetings > the meeting topic**).

Send an Outlook Calendar invitation:

Click **Outlook Calendar**.

The .ics file will download. Click the downloaded file.

A pre-filled Outlook Calendar invite will open. Click **Invite Attendees**.

Add your attendees and click **Send**.

Copy and paste the meeting URL:

Scroll to the **Invite Attendees** section.

Copy the **Join URL** and paste it into an email or onto a flyer, etc.

Personal Meeting Room
[\(Video\)](#)

You can host a meeting at any time without scheduling it in advance by using your Personal Meeting ID.

Log in to **Zoom**.

Click **Meetings > Personal Meeting Room**.

To adjust meeting settings, scroll to the bottom of the screen and click **Edit this Meeting**. Make edits and click **Save**.

Follow the instructions above to send an Outlook Calendar invitation or copy and paste the meeting URL.

Host Controls
[\(Video\)](#)

Mute mutes/unmutes yourself.

Start Video/Stop Video to turns your webcam on/off.

Click **Invite** to email an invitation to attendees.

Manage Participants displays/hides the participants panel. From within the participants panel, you can mute/unmute individual participants or click **More** at the bottom of the panel to mute participants upon entry.

Click **Share** to share a screen or individual app with participants. Click **Advanced** to share only a portion of a screen.

Note: When sharing your screen, all Zoom controls minimize to a small, green button in the top center of the screen. Hover over it to expand the controls. Click the orange **Stop Share** button to stop sharing.

Chat displays/hides the chat panel. Click **More** to allow attendees to chat with the host-only or everyone.

Record the webconference to your local computer or to “the cloud” (i.e. a Zoom server).

Click **End Meeting** to end and close the meeting for all participants.

Special Features

[How to share a whiteboard](#) that you and other participants (if allowed) can annotate.

[How to transfer files](#) during a meeting.

[How to create polls](#) with single-choice or multiple-choice questions.

[How to create breakout rooms](#) for small group work.

Enabling Closed Captioning
[\(Video\)](#)

A week before the meeting, email interpreters@nvcc.edu to schedule a captionist. In the email, include the date, time, duration and URL for the meeting.

You must enable closed captioning BEFORE scheduling and starting a meeting.

Go to <https://vccs.zoom.us> and click **Settings**. Log in.

From the left menu, click **Settings > Meeting**.

Scroll down to the **In Meeting (Advanced)** section.

Click the toggle button next to **Closed captioning**.

<p>Assigning the Closed Captionist</p>	<p>Start the meeting.</p> <p>In the toolbar at the bottom of the screen, a Closed Caption icon will appear. If it is green, CC is enabled. Click the icon to enable/disable CC for this meeting.</p> <p>The captionist will join the meeting like any other participant. Hover over the captionist's name to display the More button.</p> <p>Click More > Assign to type Closed Caption.</p> <p>The captionist clicks the CC icon in the toolbar to see a captioning box. As they type in the box, all participants will see the text appear at the bottom of their screens.</p>
