

BIO 141/NAS 2 Workshop – Test Prep

Beginning this fall, students wishing to enroll in BIO 141—*Human Anatomy & Physiology I* must first show a mastery of several topics (chemistry, cells, and inheritance). There are several ways to accomplish this:

- 1) Complete a BIO 101 course with a grade of C or higher
- 2) Complete a NAS 2 course with a pass grade
- 3) Complete a placement exam with a grade of 75% or higher

In order to help prepare students to take the placement exam and/or identify topics that they may need to review further, we are offering a free BIO 141/NAS 2 workshop. The workshop will cover the topics of chemistry, cells, and inheritance, and it will include Zoom sessions, worksheets, and practice quizzes.

The workshop is scheduled for June 21 – July 1. Zoom meetings will occur Tuesday, Wednesday, and Friday evenings from 4:00 – 6:00 pm.

Any student wishing to register for the workshop should contact Dr. Michelle Gaston at mgaston@nvcc.edu to gain access to the workshop Canvas site.
