Appendix B

STEMHAWK INTERNSHIP APPLICATION

Internships must meet with Coordinated Internship and NOVA’s Cooperative Education Services requirements and the approval from STEMHAWKS administration. Students should enroll in Cooperative Education-197/297 and/or Coordinated Internships-190/290 as most employers require students are enrolled in a credit bearing class. STEMHAWKS students can receive college credit for internships but must begin the application process ten weeks before starting the internship. To receive college credit, follow the instructions found in the Cooperative Education or Coordinated Internship Handbook.
