# Selected Trend Data on Disciplines: Fall 2010 to Fall 2014

Research Report No. 01-15

Office of Institutional Effectiveness and Student Success Initiatives  
JANUARY 2015

**NORTHERN VIRGINIA COMMUNITY COLLEGE**  
**OFFICE OF INSTITUTIONAL EFFECTIVENESS AND STUDENT SUCCESS INITIATIVES**

The purpose of the Office of Institutional Effectiveness and Student Success Initiatives is to conduct analytical studies and provide information in support of institutional planning, policy formulation, and decision making. In addition, the office provides leadership and support in research related activities to members of the NOVA community engaged in planning and evaluating the institution's success in accomplishing its mission.

When citing data from this report, the Northern Virginia Community College (NOVA) Office of Institutional Effectiveness and Student Success Initiatives must be cited as the source.

ME: FTES, Current Funded Ratio, and FTEF Requirement by Campus and Discipline – Fall 2014.....	51
WO: FTES, Current Funded Ratio, and FTEF Requirement by Campus and Discipline – Fall 2014.....	52

## Explanatory Notes for Tables 1 through 7

### Tables 1.AL through 1.WO

Tables 1.AL through 1.WO provide information by campus for each discipline. All tables show the number of FTES for Fall 2014 (preliminary) in column 2 and the Current Funded Ratio (CFR) in column 3. Based on the FTES and the CFR, the FTEF Requirement for each discipline is calculated. (The FTEF Requirement in column 4 is calculated as  $\frac{FTES \times 0.6}{CFR}$ ). The tables also give Fall 2014 full-time faculty headcount in column 5 that was provided by the Human Resources department. If faculties teach multiple disciplines, the headcount is split equally between disciplines. Column 6 shows the difference between the FTEF requirement and the full-time faculty headcount. Data were extracted from the NVCC Faculty Ratios PeopleSoft query in the middle of the Fall 2014 semester.

### Tables 2.AL through 2.WO

Tables 2.AL through 2.WO give FTES information by campus for each discipline. The five-year trend in FTES, Fall 2010 to Fall 2014, is displayed for each discipline along with the percent change from Fall 2010 to Fall 2014 and the average FTES over the time period. For disciplines that do not have data available for all 5 years, percent change is not given, and average FTES are based on the available data. The FTES data given for Fall 2014 were extracted in the middle of the semester and are therefore not the final figures.

### Tables 3.AL through 3.WO

Tables 3.AL through 3.WO give the teaching credit hours (TCH) by campus and discipline. The tables show full-time and part-time faculty teaching credit hours and total faculty teaching credit hours (the sum of full- and part-time TCH) and the proportion of total teaching credit hours taught by part-time faculty. The tables are sorted from highest to lowest according to the part-time proportion. The data in this table were extracted from the NVCC Faculty Ratios PeopleSoft query in the middle of the Fall 2014 semester.

### Tables 4.AL through 4.WO

Tables 4.AL through 4.WO provide discipline productivity information for each campus for five years. Discipline productivity is expressed as a percentage and is computed by dividing the actual discipline semester ratio of FTES to FTEF by the current funded ratio. In Fall 2006, the Base Budget Adequacy Funding Model Ratio (new ratio) was revised. Due to this revision, the efficiency factor for NOVA was changed from 1.17 in Fall 2005 to 1.103 in Fall 2006. All data in this table are based on a factor of 1.103 efficiency.

From Fall 2009, adjunct faculty FTEF was calculated according to load. In prior years, FTEF figures came from the "Discipline Performance Statistics Report" produced by the Information Technology department. The FTEF data from this report derived FTEF from faculty load.

### Tables 5.AL through 5.ELI

Tables 5.AL through 5.ELI show, by campus (including ELI) and discipline, student credit hours generated, the discipline ratio, and the discipline multiple. The discipline multiple is computed by multiplying the credit hours by the ratio. The credits and the multiples are summed for each campus. The programmatic mix for the campus is calculated by dividing the total of the discipline multiples by the total of the discipline credit hours.

### Table 6

Table 6 displays the student/faculty ratios developed by the Joint Subcommittee on Higher Education Funding Policies.

### Table 7

Table 7 shows, by discipline, the Base Budget Adequacy Funding Model Ratio and the ratio adjusted by the NOVA efficiency factor.

Tables 1.AL through 1.WO provide information by campus for each discipline. All tables show the number of FTES for Fall 2014 (preliminary) in column 2 and the Current Funded Ratio (CFR) in column 3. Based on the FTES and the CFR, the FTEF Requirement for each discipline is calculated. (The FTEF Requirement in column 4, is calculated as  $\frac{FTES \times 0.6}{CFR}$ ). The tables also give Fall 2014 full-time faculty headcount in column 5 that was provided by the Human Resources department. If faculties teach multiple disciplines, the headcount is split equally between disciplines. Column 6 shows the difference between the FTEF requirement and the full-time faculty headcount. Data were extracted from the NVCC Faculty Ratios PeopleSoft query in the middle of the Fall 2014 semester.

Data provided in the Full-Time Faculty Headcount column (FT Faculty Headcount) of Tables 1.AN through 1.WO are from the Human Resources department and are a snapshot of the current full-time faculty as of December 17, 2014. The data presented in this column reflect data as recorded in the Human Resources department. If any discrepancy is found between the data presented and the actual headcounts in the respective divisions, the divisions may contact the Human Resources department for clarifications. If there is a need, OIR will assist in this process.

Some disciplines are classified by Human Resources differently from what is used at the divisions. For example, though faculty may be assigned to the ITE, ITD, ITN, and ITP disciplines, Human Resources maintain information as IT.

Tables 2.AL through 2.WO give FTES information by campus for each discipline. The five-year trend in FTES, Fall 2010 to Fall 2014, is displayed for each discipline along with the percent change from Fall 2010 to Fall 2014 and the average FTES over the time period. For disciplines that do not have data available for all 5 years, percent change is not given, however average FTES are based on the available data. The FTES data given for Fall 2014 were extracted in the middle of the Fall 2014 semester and are therefore not the final figures.

Tables 3.AL through 3.WO give the teaching credit hours (TCH) by campus and discipline. The tables show full-time (FT) and part-time (PT) faculty teaching credit hours and total faculty teaching credit hours (the sum of full- and part-time TCH) and the proportion of total teaching credit hours taught by part-time faculty. The tables are sorted from highest to lowest according to the part-time proportion. The data shown in this table were extracted from the NVCC Faculty Ratios PeopleSoft query in the middle of the Fall 2014 semester.

Tables 4.AL through 4.WO provide discipline productivity information for each campus for five years. Discipline productivity is expressed as a percentage and is computed by dividing the actual discipline semester ratio of FTES to FTEF by the current funded ratio. In Fall 2006, the Base Budget Adequacy Funding Model Ratio (new ratio) was revised. Due to this revision, the efficiency factor for NOVA was changed from 1.17 in Fall 2005 to 1.103 in Fall 2006. All data in this table are based on a factor of 1.103 efficiency. The FTEF data from this report were derived from faculty load.

Tables 5.AL through 5.ELI show, by campus (including ELI) and discipline, student credit hours generated, the discipline ratio, and the discipline multiple. The discipline multiple is computed by multiplying the credit hours by the ratio. The credits and the multiples are summed for each campus. The programmatic mix for the campus is calculated by dividing the total of the discipline multiples by the total of the discipline credit hours.

- The student/faculty ratios are determined under the Base Budget Adequacy Funding Model. The Base Budget Adequacy Funding Model was developed by the Joint Subcommittee on Higher Education Funding Policies. Column 3 in Table 7 gives the Base Budget Adequacy Funding Model Ratio.
- Under the Base Budget Adequacy Funding Model, each VCCS institution has been provided with an efficiency factor with which they are expected to operate. Since NOVA is expected to operate at 110% efficiency, the Base Budget Adequacy Funding Model ratio is adjusted by 1.103 and the adjusted ratio is shown in Column 4 of Table 7.

Table 7 shows, by discipline, the Base Budget Adequacy Funding Model Ratio and the ratio adjusted by the NOVA efficiency factor.

# **APPENDIX**

## **APPENDIX: FTES, Current Funded Ratio, and FTEF Requirement by Campus and Discipline – Fall 2014**

The following tables provide information by campus for each discipline. All tables show the number of FTES for Fall 2014 (preliminary) in column 2 and the Current Funded Ratio (CFR) in column 3. Based on the FTES and the CFR, the FTEF Requirement for each discipline is calculated. The FTEF Requirement is calculated by dividing the actual FTES by the CFR, as shown in column 4 of the table. The tables also give Fall 2014 full-time FTEF in column 5 and part-time FTEF in column 7. Column 6 shows the difference between the FTEF requirement and the full-time faculty utilized (FTEF). Data were extracted from the NVCC Faculty Ratios PeopleSoft query in the middle of the Fall 2014 semester.

## ***NOVA Mission and Strategic Goals: 2005 – 2015***

### **Mission**

With commitment to the values of access, opportunity, student success, and excellence, the mission of Northern Virginia Community College is to deliver world-class in-person and online post-secondary teaching, learning, and workforce development to ensure our region and the Commonwealth of Virginia have an educated population and globally competitive workforce.

### **Strategic Goals**

- I. STUDENT SUCCESS – Northern Virginia Community College will move into the top tier of community colleges with respect to the college readiness, developmental course completion, retention, graduation, transfer, and career placement of its students.
- II. ACCESS – Northern Virginia Community College will increase the number and diversity of students being served to mirror the population growth of the region.
- III. TEACHING AND LEARNING – Northern Virginia Community College will focus on student success by creating an environment of world-class teaching and learning.
- IV. EXCELLENCE – Northern Virginia Community College will develop ten focal points of excellence in its educational programs and services that will be benchmarked to the best in the nation and strategic to building the College's overall reputation for quality.
- V. LEADERSHIP – Northern Virginia Community College will serve as a catalyst and a leader in developing educational and economic opportunities for all Northern Virginians and in maintaining the quality of life and economic competitiveness of the region.
- VI. PARTNERSHIPS – Northern Virginia Community College will develop strategic partnerships to create gateways of opportunity and an integrated educational system for Northern Virginians who are pursuing the American Dream.
- VII. RESOURCES – Northern Virginia Community College will increase its annual funding by \$100 million and expand its physical facilities by more than one million square feet in new and renovated space. This includes the establishment of two additional campuses at epicenters of the region's population growth, as well as additional education and training facilities in or near established population centers.
- VIII. EMERGENCY PREPAREDNESS AND CONTINUITY OF OPERATIONS – Northern Virginia Community College will be recognized as a leader among institutions of higher education in Virginia for its development and testing of emergency response and continuity of operation plans.
