Seat Utilization by Discipline and Course at the Medical Education Campus: Fall 2013

Introduction

This Report presents seat utilization rates by discipline and course at the Medical Education Campus for Fall 2013. The seat utilization rate for each section of a course is calculated by dividing the number of students enrolled in the section by the room capacity, or the number of seats that fit in the classroom. Extended Learning Institute (ELI, distance learning) sections, off-campus venues sections, zero-credit labs, zero-credit clinics, applied music courses (private lessons), and courses designated as internships, on-the-job training, or independent study¹ are excluded.

Tables are divided by discipline and sorted by course number in descending seat utilization rate for the sections. Other information by section includes: component (type of class, e.g., lecture, lab, etc.), room number, meeting days, start and end time, and number of empty seats. Data² in this report can be used to analyze section room capacity for planning purposes.

¹ The following internship/on-the-job training/independent study courses were excluded: Coordinated Internship (90-190-290), On-Site Training (96-196-296), Cooperative Education (97-197-297), Seminar and Project (98-198-298), and Supervised Study (99-199-299).
