## FTES by Residency Status: Spring 2012 through Fall 2013

This Research Brief presents Northern Virginia Community College (NOVA) FTES (full-time equivalent students) by in-state and out-of-state residency status. Data are shown, by semester, for each of NOVA's six campuses and college-wide. Tables 1 and 2 present domicile status for two consecutive fall semesters while Tables 3 and 4 present data for two consecutive spring semesters.

Overall, the proportion of in-state to out-of-state FTES at the College has remained the same during the four semesters from Spring 2012 through Fall 2013, at 89% in-state FTES and 11% out-of-state FTES. Across the campuses, there is variation in the percentage of in-state to out-of-state FTES, but a consistent pattern occurs with the lowest percentage of out-of state FTES at the Manassas Campus (6%) and the highest percentage of out-of state FTES at the Alexandria Campus (15-16%).

Table 1 below and Table 2 (next page) show FTES by residency status for Fall 2013 and Fall 2012, respectively. College-wide during both fall semesters, 89% of FTES were in-state and 11% of FTES were out-of-state. Among the campuses, during the two fall semesters, the percentage of out-of state FTES ranged from 6% at the Manassas Campus to 16% at the Alexandria Campus.
