## FOREWORD

The Office of Strategic Insights (OSI) is pleased to present the thirty-sixth edition of the Northern Virginia Community College (NOVA) Fact Book. The Fact Book is designed to serve as a readily available source of information about the College. OSI is committed to partnering with College-wide constituencies to provide data and intelligence to stakeholders to advance NOVA's mission, vision, and strategic plan. The Fact Book is one of the many tools to support that goal.

As in the past, information from the previous editions is updated following a similar format, allowing users to make year-over-year comparisons. The NOVA Fact Book chapters 1 to 6 present the College's student enrollment, graduates and transfers, finances and facilities, personnel, support services and community education, and international student data. Chapters 7 to 16 present data for each of the six campuses, NOVA Online, Information and Engineering Technologies, as well as new chapters on Dual Enrollment and Employment and Wage Outcomes. The Glossary provides useful definitions in Chapter 17.

Most of the data and information are retrieved from the College's Institutional Research Information System (IRIS) database by the Office of Strategic Insights. Labor Market Intelligence provides Employment data. The Office of Strategic Insights thanks all the offices that contribute to the publication of the NOVA Fact Book: the Budget Office, Facilities Planning and Support Services, Financial Aid, Graphics, Human Resources, Libraries, Printing Services, Web Services, and Workforce. We thank the above-mentioned units of the College for their continued collaboration.

The Office of Strategic Insights would appreciate your comments and suggestions for future editions. Please email your comments and suggestions to data@nvcc.edu or call the office at (703) 764-7391. We welcome your input. The Fact Book is updated annually by the Office of Strategic Insights and can be found on its homepage at www.nvcc.edu/osi/oir/fact-book.

The Medical Education Campus (MEC) opened in Fall 2003 in Springfield. The MEC offers various health-related programs and features state-of-the-art classrooms and laboratories, a dental clinic, and a simulation center for Nursing and Health Sciences students. The MEC is a member of the NoVaHealthFORCE, an initiative of the Northern Virginia Health Care Workforce Alliance (NVHCWA), which addresses issues in health care professions.

- Woodbridge Campus

The Woodbridge Campus primarily serves the residents of eastern Prince William County. From 1972 through 1975, classes were offered in temporary mobile buildings. Construction of the campus's first building (Seefeldt Building) was completed in 1975 and then underwent an expansion and renovation in 1990. The bookstore opened in 2008; the Heating, Ventilation, and Air Conditioning Building opened in 2009; the Facilities Maintenance Building opened in 2012; the Arts and Science Building opened in 2013; and the Regional Center for Workforce Education and Training opened in 2016. The Woodbridge Campus also provides off-campus instruction at area high schools and at the Quantico and Fort Belvoir military installations. Currently, the Seefeldt Building is undergoing a three-year comprehensive renovation which will include reconfiguration and modernization of all spaces, new finishes, ceilings, flooring, casework, and replacement of all major building
components. During construction, temporary classrooms and administrative and faculty offices will be housed in a mobile trailer village on the campus.

- NOVA Online (Formerly Extended Learning Institute)

NOVA Online (NOL), formerly the Extended Learning Institute (ELI), developed its first distance education courses in January 1975. ELI rebranded to NOVA Online in 2018. NOVA Online provides students with the opportunity to take the same classes offered on campus but in a different format. NOVA Online courses may be completed at home, while stationed abroad, or on the road. NOVA Online offers 19 different associate degrees and 16 certificate programs entirely online.

- Information and Engineering Technologies

NOVA created the College-wide Information and Engineering Technologies (IET) division in 2018-19. The IET division equips students with the knowledge and skills necessary to succeed in the rapidly growing and high demand fields of IT and engineering technology. The programs found within IET are aligned to the needs of industry, infused with opportunities to earn industry-recognized credentials, and targeted at high growth areas that show significant job demand within the Northern Virginia region.

## II. Accreditation, Degrees, Certificates, and Curricula Offered

## A. Accreditation

NOVA is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award the Associate of Arts, Associate of Science, Associate of Applied Arts, Associate of Fine Arts, Associate of Applied Science, and certificates in selected occupational areas.

Curricula of the College are approved by the NOVA Board and by the State Board. The twoyear associate degree programs are also approved by the State Council of Higher Education for Virginia (SCHEV).

Many of NOVA's Health Sciences and Nursing degree programs are accredited by accreditation bodies including the Commission on Dental Accreditation (CODA), Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS), Commission on Accreditation of Allied Health Education Programs (CAAHEP), the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), the Accreditation Commission for Education in Nursing (ACEN), the Accreditation Council for Occupational Therapy Education (ACOTE), the Commission on Accreditation in Physical Therapy Education (CAPTE), and the Commission on Accreditation for Respiratory Care (CoARC).

## B. Degrees, Certificates, and Curricula Offered

- Degrees and Certificates:

The College offers Associate of Arts (A.A.) degrees, Associate of Science (A.S.) degrees, Associate of Applied Arts (A.A.A.) degrees, Associate of Fine Arts (A.F.A.) degrees, Associate of Applied Science (A.A.S.) degrees, Certificates (at least 30 credits), and Career Studies Certificates (between 9 and 29 credits).

- Curricula:

The College offers 63 two-year degree programs (A.A., A.S., A.A.A., A.F.A., and A.A.S.), 8 Certificate programs, and 48 Career Studies Certificate programs.

## III. Historical Enrollment Data

The following tables and figure present historical enrollment data for NOVA. Table 1 presents annual data from 1981-82 through 2022-23. Table 2 presents data for the fall quarter for Fall 1965 through Fall 1980. Figure 1 presents annual data from 1981-82 through 2022-23. It should be noted that in Fall 1988, the College and the VCCS changed from the quarter to the semester system. Caution is therefore needed when examining and interpreting student enrollment trends involving both the quarter and the semester systems.

## CHAPTER 1: STUDENT ENROLLMENT

There are four sections in this chapter: Headcount and Full-Time Equivalent Student (FTES) Enrollment, Student Profile, Enrollment by Program Type, and FTES Enrollment by Discipline.

## I. Headcount and FTES Enrollment

The annual unduplicated headcount is the total number of individual students enrolled in one or more semesters during one academic year (summer, fall, and spring). Full-Time Equivalent Students (FTES) is a measure derived from the credit loads of students. The FTES for one semester is calculated by dividing the total academic credits being taken by 15.

In 2022-23, the annual unduplicated headcount decreased by 3 percent and the annual FTES decreased by 10 percent as compared to the 2018-19 academic year.

## F. Student Type

First-time students are those attending college for the first time in the Fall semester, including students who first enrolled in the prior summer and continued in the Fall semester, and students with prior high school dual enrollment. New Transfer to NOVA students are those who attended another college prior to enrolling at NOVA for the first time, regardless of whether they transferred credits.

From Fall 2018 to Fall 2022, the proportion of first-time students increased from 28 to 42 percent. The proportion of returning students decreased from 67 to 54 percent, and the proportion of new transfer students decreased from 5 to 4 percent.

FALL 2018 THROUGH FALL 2022

## H. Full-/Part-Time Status

A full-time student is enrolled in 12 or more credits of coursework in a semester or during the summer. A part-time student is enrolled in fewer than 12 credits of coursework in a semester or during the summer.

From Fall 2018 to Fall 2022, the proportion of full-time students decreased from 33 to 26 percent. The proportion of part-time students increased from 67 to 74 percent.

## J. Fall-to-Fall Retention

Fall-to-fall retention is the percentage of students who enroll at NOVA in a Fall semester and then either re-enroll or successfully complete their program by the following Fall semester.

The Fall-to-Fall retention rate for all students at NOVA stayed the same, at 54 percent, between the Fall 2017 cohort and the Fall 2021 cohort. For the same time period, the Fall-to-Fall retention rate for all first-time students remained at 53 percent; for first-time, full-time, program placed students remained at 72 percent; and for first-time, part-time, program placed students remained at 53 percent.

## CHAPTER 13: NOVA ONLINE

## I. Headcount and FTES Enrollment

This chapter presents data on NOVA students enrolled in NOVA Online courses. Since NOVA Online is not considered a separate campus, these data are extracted from the six NOVA campuses (Chapters 7 through 12). The headcount of students taking NOVA Online courses is applied to the home campus of the students. FTES of NOVA Online students is applied to the students' course campus.

From 2018-19 through 2022-23, NOVA Online headcount increased by 5 percent, and NOVA Online FTES increased by 15 percent.

## CHAPTER 14: INFORMATION AND ENGINEERING TECHNOLOGIES

## I. Headcount and FTES Enrollment

NOVA created the College-wide Information and Engineering Technologies (IET) division in 2018-19. This chapter presents data on NOVA students with a primary program of study listed in Table IET. 14 (page IET-9). Since Information and Engineering Technologies is not considered a separate campus, these data are extracted from the six NOVA campuses (Chapters 7 through 12). Headcount of students is applied to the home campus of the students. FTES is applied to the students' course campus. In 2021-22, Engineering Technology, A.A.S. moved from the IET Pathway Council to the Engineering and Applied Technologies Pathway Council and moved back to IET in 2022-23. In 2021-22 Computer Science, A.S. moved from the Math and Computer Science Pathway Council to the Information and Engineering Technology Pathway Council. In 2022-23 Computer Science moved from IET to Computer Science and Information Technology Pathway Council. Therefore, numbers and percentages may not match prior editions of the Fact Book.

## CHAPTER 15: CONTRACT DUAL ENROLLMENT

There are five sections in this chapter: Headcount and Full-Time Equivalent Student (FTES) Enrollment, Student Profile, Contract Dual Enrollment, Conversion Rate, and Contract Dual Enrollment FTES by Discipline.

## I. Headcount and FTES Enrollment

Classes designated as contract dual enrollment are offered at various high schools within the NOVA service region, are available during the regular school day for students attending that specific high school/academy, are zero tuition, and the course offerings vary by district. Contract classes are taught by high school teachers who meet NOVA's credentialing requirements to serve as NOVA adjunct instructors.

The annual unduplicated headcount is the total number of individual students enrolled in one or more semesters during one academic year (summer, fall, and spring). Full-Time Equivalent Students (FTES) is a measure derived from the credit loads of students. The FTES for one semester is calculated by dividing the total academic credits being taken by 15 . In 2022-23, the annual contract dual enrollment student unduplicated headcount increased by 55 percent and the annual FTES increased by 53 percent as compared to the 2018-19 academic year.

## IV. Conversion Rate

The conversion rate is the percentage of contract dual enrollment students who continued in college at NOVA after high school. In the table below, N is the total number of contract dual enrollment students.

The full-time conversion rate for contract dual enrollment students at NOVA decreased from 10 percent for the Fall 2017 cohort to almost 6 percent for the Fall 2021 cohort. However, the part-time conversion rate for contract dual enrollment students remained the same at about 3 percent during the same time period.

## CHAPTER 16: EMPLOYMENT AND WAGE OUTCOMES

This chapter presents data on employment and wage outcomes for graduates of NOVA programs. The source of these data are statewide unemployment insurance (UI) records provided by the Virginia Employment Commission, along with IRIS files from the Office of Strategic Insights.

It is important to note that these UI data do not include records of individuals employed outside of the Commonwealth of Virginia; individuals employed by the federal government; or individuals employed in sectors or jobs not covered by the state UI system, including student employees, elected state and local officials, most farm workers, active duty miliary, the incarcerated, and the self-employed. As a result, a graduate not counted as "employed" could be involuntarily unemployed, voluntarily unemployed (due to retirement or seeking additional education), or part of any of these excluded groups.

## I. Employment and Wages by Cohort

This section provides employment rate and wage measures for graduates from individual academic year cohorts.

In Table EMP.1, a student is counted as employed in the year following completion of a credential if they were paid wages by an employer in any one (or more) of the four quarters immediately following the term/quarter in which they graduated.

TABLE EMP. 1
GRADUATE EMPLOYMENT 1 YEAR POST-COMPLETION 2015-16 THROUGH 2019-20

| Academic Year | Graduates | \# Employed | \% Employed |
| :---: | ---: | ---: | ---: |
| $2019-20$ |  | 6,954 | 4,202 |
| $2018-19$ | 6,747 | 4,387 | 60.4 |
| $2017-18$ | 6,347 | 4,234 | 65.0 |
| $2016-17$ | 6,669 | 4,550 | 66.7 |
| $2015-16$ | 6,939 | 4,714 | 68.2 |

In Table EMP.2, a student is counted as employed five years following completion of a credential if they were paid wages by an employer in any one (or more) of the four quarters of the calendar year five years following the year in which they graduated.

TABLE EMP. 2
GRADUATE EMPLOYMENT 1 and 5 YEARS POST-COMPLETION 2011-12 THROUGH 2015-16

| $2011-12$ | 6,926 | 4,461 | 64.4 | 3,916 | 56.5 |

In Tables EMP. 3 and EMP. 4 the median wage measure only encompasses students with wages at or above an annual full-time rate based on the Virginia/federal minimum wage ( $\$ 7.25$ per hour or $\$ 15,080$ per year) in the calendar year following the year in which they graduated. ${ }^{1}$ It cannot be determined,

[^4]FACT BOOK 2018-2019 - 2022-2023
based on available data, whether these individuals are employed full-time in terms of the number of hours they actually worked during this time period.

## III. Employment and Wages by Industry Sector

This section provides full-time employment by industry sector. Full-time employment uses the same definition as provided above.

The top industries employing NOVA graduates full-time were:

- Professional and Business Services, which includes businesses engaged in activities such as management consulting services, management of companies and enterprises, office administrative services, and waste collection;
- Health Care and Social Assistance, which includes businesses providing health care services, such as hospitals and doctors' offices, as well as those engaged in activities such as residential care and individual and family services; and
- Wholesale and Retail Trade, which encompasses businesses such as supermarkets, department stores, gas stations, and merchant wholesalers.

These three sectors combined employed 60 percent of all full-time-employed graduates. Leisure and Hospitality, Financial Activities, and Education Services also employed a significant number of NOVA graduates, comprising an additional 23 percent of all graduates employed full-time.

An individual is counted as employed full-time if they earned at least the equivalent of a full-time minimum wage $-\$ 7.25$ per hour for forty hours per week, or $\$ 15,080$ per year - during the calendar year after the year in which they graduated. There is no way to determine from the available data whether someone was actually working full-time hours. For example, a student who graduated in May of 2020 would be considered employed full-time if they made at least $\$ 15,080$ in 2021, regardless of how many hours they actually worked.

## Full-Time Equivalent Faculty (FTEF)

Calculated by dividing the total credits taught by 15 for a semester or by 30 for an academic year; can be computed for the College and by campus, discipline, or instructional faculty type.

## Full-Time Equivalent Student (FTES)

Measure of enrollment intensity calculated in any of the following three ways:

- Semester FTES - Computed by dividing the total number of semester credits by 15.
- Regular-Session FTES - Calculated by adding Fall and Spring semester credits and dividing by 30.
- Annual FTES - Calculated by adding Summer, Fall, and Spring semester credits and dividing by 30.

Note: When FTES is calculated for distance learning students, credits are assigned to the course campus.
