

A Guide to Spring 2026 DMS 100 or RAD 105 Registration

Spring 2026 registration opens on October 27, 2025

- DMS 100 and RAD 105 are high demand courses that fill quickly
- Spring sections reserved for applicants will require Department Consent (DC); if filled they will use a waitlist maintained by Diagnostic Imaging
- Applicants must have all requirements completed or be enrolled in final requirements for Spring to be approved for a reserved section
- Open sections will use a SIS waitlist once they have filled | [How to Add to SIS Waitlist](#)
The college will close SIS waitlists approximately one week before class begins. After that happens, students may keep checking through the [Last Day to Add](#) for any openings
