

## Ineligible Majors for Student Financial Aid

The U.S. Department of Education certifies NOVA's participation for student financial aid programs. In order to be eligible for financial aid the academic program must be at least 16 semester credits in length.

At NOVA, all associate degree programs will qualify for financial aid. Most credit-based certificate programs are also eligible. There are some Career Studies Certificate and Certificate programs which are NOT eligible for financial aid. If you are in one of these, you should discuss your options with your academic advisor to determine if there is an associate degree or certificate program which would be eligible for financial aid which is compatible with your career goals.
