ACCEPTANCE CATEGORIES
Due to limited laboratory, classroom and/or clinical space, the Nursing Program has restricted enrollment. As stated in the NOVA College Catalog students are accepted into the Nursing Program on a competitive basis with priority acceptance given to: (1) legal residents domiciled in the cities and counties supporting the College, (2) other Virginia legal residents, (3) out-of-state applicants, and (4) international students requiring form I-20. For the Nursing Program, "Counties supporting the College" may include those in which clinical affiliates have contractual agreements with NOVA.
CRIMINAL BACKGROUND CHECK AND DRUG SCREEN POLICY

At a minimum, an annual criminal background check and drug screen will be required as clinical affiliates mandate this requirement in affiliation agreements. Any student that does not pass the background check or drug screen must resolve this issue directly with the agency who conducted the background check and drug screen. Unresolved issues presented in the criminal background checks or drug screens will result in dismissal from the Nursing Program. Such dismissed students will not be allowed admission in any other Nursing Program track.

In addition to felony convictions (including barrier crimes outlined in the Code of Virginia), students will also be screened for misdemeanors, drug, and alcohol convictions. Students should not obtain the criminal background check and drug screening until notified by the Nursing Department to do so.

I acknowledge that I have read and understand the Criminal Background Check and Drug Screen Policy: ________ (initial here)  ________ (date here)
