# SIS Basics: Scroll Features

Overview   SIS contains many scroll features so that you can use to view data.

VIEW ALL: By clicking this link, it will display all data rows on one page and you can navigate through them using the scroll bar on the right to scroll up and down.

VIEW 1:   If you are viewing all, you can return to just one view by clicking "View 1"

ARROWS: The Scroll Arrows let you look at all the pages associated with your search results. In this example you can scroll through 14 class sections.

LAST: Allows you to 'jump' to the last data page. In this example, it would go to the 14th class section.

FIRST: Allows you to go back to the first data page.

BOTTOM   Sometimes you need to use the scroll bar on the bottom to see information displayed on the extreme right of the page
