

SIS Basics: Student Inquiry pages

Overview: The Student Inquiry pages present a wealth of information about students: courses, grades, transfer credit, test scores, etc. These views are customizations created by Kelly Wilcox from Tidewater CC.

Navigation: MyNOVA>VCCS Custom>Student Records>Career and Program Information>Student Inquiry

Enter the students EMPL ID or Name in the search box. Note all the tabs on the Inquiry page:

Note: When looking up information on any student, these pages will probably have most of the information you need. Add this one to your Favorites.
