Connecting to NOVA Wi-Fi: Windows 8
1. Hover your mouse to the upper right corner of the screen to display the Charms Bar.

![Charms Bar](http://blogs.msdn.com/b/zxue/archive/2012/03/08/win8-hwto-18-configure-wifi-connection-and-airplane-mode.aspx)

2. Select **Settings | Wireless** to turn on the **Wi-Fi**.

3. Now go back to the charms bar and click on **Wi-Fi** icon.

5. Enter your **MyNOVA** account username and password when prompted for credentials.
6. Once you are successfully connected to the network, the word **connected** will appear below the **Directory** domain.
